Serving *tips:*

Step 1: Each cake or pie will serve 10-12 people or 3-4 rabid Graeter's fans.

Step 2: Temper the ice cream by transferring it from your freezer to refrigerator for 40-45 minutes this will allow the cake to moisten and ice cream to soften.

Step 3: Heat your knife under hot water after every cut. Wipe blade dry before next cut.

Step 4: If it's a pie, remove the entire pie from the tin and onto a cutting board (save the pie tin in case there are leftovers)

Step 5: Once finished, put a piece of wax paper in between each slice before putting it back into the dome. Return to freezer.
